## Why Work with Me?

I'm an extremely dedicated and passionate individual who truly cares about the people and projects I work with. I carry the philosophy “a rising tide raises all ships” where I aim for the success for all that I'm involved with, and hope that my own personal success will raise your “ship” as well. I'm also in the know of some key attributes of commercial success as some of my achievements include.

- A variety of TV/Film placement including a theme song for ABC Family show.
- I've been involved in the commercial launch of artist who have reached top 10 on iTunes
- I help manage LA-based music library (TZVIAH Music) where I help in pitching on a variety of TV/Film/Video Game Syncs

Because I produce music for TV/Film, I have learned to work extremely fast and efficiently, while always creating a visual element to my productions - my work translates very well to video and live performance. I also adopt the philosophy that if it's not a 10/10, it's a 2/10. Meaning we always have to strive to achieve near perfection in our music.
